What is this product?

Type

Units of a sub-fund of Fidelity Common Contractual Fund II, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity Common Contractual Fund II may terminate the fund by way of liquidation or merger.

Objectives

Objective: The fund aims to achieve long-term capital growth.

Investment Policy: The fund obtains exposure to a diversified portfolio at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in Japan.

The equity securities in which the fund will invest may include common stocks, depositary receipts and related securities such as preferred stocks, real estate investment trusts, private placement securities, exchange traded commodities, subscription rights, warrants, equity-linked notes, initial public offerings, secondary offerings, Rule 144A or Regulation S securities, partnership interests and convertible securities.

The fund may also invest, on an ancillary basis, in investment grade government and corporate bonds, convertible bonds and, for cash management purposes, in cash and cash equivalents.

Investment Process: The Investment Manager has appointed a number of discretionary investment advisers as its delegates and will allocate some or all of the fund's assets to such advisers.

In selecting securities, each adviser will take into consideration such factors as economic, legislative, and business developments, market conditions, the presence (or absence) of a given security in an index and the results of bottom-up or top-down analysis, proprietary research or publicly available research.

Derivatives and Techniques: The fund may use derivatives for efficient portfolio management, currency hedging, and investment purposes.

Benchmark: The Sub-Fund is actively managed and references the Tokyo Stock Exchange TOPIX Total Return Index (Net return) (the

"Benchmark"). The Investment Manager has a wide range of discretion over the composition of the Sub-Fund's portfolio. It may take exposures that are not included in, and that have different weightings from, the Benchmark. Therefore, there are no restrictions on the extent to which the Sub-Fund's performance may deviate from that of the Benchmark. The Investment Manager may set internal guidelines which, in turn, may reference deviations from the Benchmark. The Benchmark is the stock market index for the Tokyo Stock Exchange ("TSE"). It is a capitalized weighted index that includes the largest companies trading on the TSE.

Base Currency: JPY

Additional information: You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day.

As this is a non-distributing share class, dividends are re-invested. This key information document describes a sub-fund of Fidelity Common Contractual Fund II. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Common Contractual Fund II. The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds.

For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from the Management Company.

These documents and details of the Remuneration Policy are available via www.fidelityinternational.com.

The Net Asset Value of the fund is available at the registered office of the Management Company, and at www.fidelityinternational.com.

Depository: Brown Brothers Harriman Trustee Services (Ireland) Limited.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds, who plan to hold their investment for a recommended holding period of at least 5 years; who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all the capital invested.
