What is this product?

Type

Shares of a sub-fund of Fidelity UCITS II ICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity UCITS II ICAV may terminate the fund by way of liquidation or merger.

Objectives

Objective: The fund seeks to achieve long-term capital growth.

Investment Policy: The fund invests at least 85% of its net assets in unit classes of the Fidelity Japan Equity Fund, a sub-fund of Fidelity Common Contractual Fund II (the "Master Fund"), providing exposure to a diversified portfolio. The Master Fund seeks to achieve its objective by obtaining exposure to a diversified portfolio, at least two thirds of which will be exposed to equities or equity-related securities of companies domiciled or exercising the predominant part of their economic activity in Japan.

The Master Fund may, with the remaining portion of its assets and on an ancillary basis, invest in investment grade government and corporate fixed income securities and convertible debt securities (listed or traded on a Recognised Market), such as commercial paper, covered bonds, inflation-linked bonds, mortgage-backed and asset-backed securities and debentures.

A small portion of the fund (up to 15%) may be retained in cash or invested in liquid instruments for liquidity purposes and for the purposes of paying any expenses of the fund. Such instruments may include money market instruments, including bank deposits, fixed or floating rate instruments, cash and cash equivalents.

Investment Process: The fund is a feeder fund and will be substantially invested in the Master Fund.

The investment returns of the fund are expected to be very similar to the Master Fund but returns could differ as the fund may invest up to 15% in cash or liquid instruments, as described above.

Benchmark: The Sub-Fund is actively managed and references the Tokyo Stock Exchange TOPIX Total Return Index (Net Return) (the "Benchmark") for comparative purposes only. The Benchmark is the stock market index for the Tokyo Stock Exchange ("TSE"). It is a capitalized-weighted index that includes the largest companies trading on the TSE.

Base Currency: EUR

Additional Information: You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day.
