This PRIIP is authorised in Luxembourg.

Structured Invest S.A. is authorised in Luxembourg and regulated by Commission de Surveillance du Secteur Financier.

31 December 2024

## What is this product?

### Type

This is a Luxembourg fund in the legal form of a société anonyme, established as a société d'investissement à capital variable according to the law of December 17, 2010 on undertakings for collective investment.

### Term

The SICAV has been established for an unlimited period. However, the SICAV may at any time be dissolved by a resolution of the general meeting of Shareholders subject to the quorum and majority requirements referred to in the Articles of Incorporation and in compliance with the provision of the Law of 1915. The Board of Directors may also decide to dissolve any Sub-Fund or any class of Shares and liquidate the assets thereof.

### Objectives

The Fund seeks to generate positive returns by investing across the full maturity and credit spectrum of fixed income securities in developed and emerging markets and within the investment grade and high yield debt markets. The Sub-Fund is actively managed in accordance with the investment restrictions and the following generic investment policy in aiming to achieve its investment objective. The Sub-Fund mainly (at least 80 %) invests in fixed income securities which are denominated predominantly in euros (may also invest in securities denominated in other currencies) and issued by governments, agencies and companies worldwide. The investment process begins with an assessment of macroeconomic factors in order to identify the key medium and long term trends. This is followed by analysis of the fundamentals of the issuers (performance, leverage, relative valuation and so on). The Sub-Fund may hold up to a maximum of 20% in cash and cash equivalents.

Bonds of issuers that are classified as "underweight" or "sell" at the time of investment are generally not considered in a purchase decision. In the event of interim downgrades of an issuer to "underweight" or "sell" during the holding period, the individual investment is considered separately on the basis of the respective analyses and a decision is then made as to whether the downgrade necessitates a sale of the respective security. For further details, please refer to the fund documents.

### Intended retail investor

The share class is aimed at Elective Professional Investors. An investment in this Sub-Fund is suitable only for investors who are able to appraise the risks and economic value of the investment. The investor must be prepared to accept a moderate volatility of the Fund shares and potentially high capital losses in order to achieve returns higher than the usual market's interest level. The Sub-Fund is intended for investors with a medium-term investment horizon. The investor may bear losses (up to the full loss of the invested capital). The fund falls into risk class 2 on a scale of 1 (safety-oriented; very low return) to 7 (very risky; highest return) in the risk assessment.

## What are the risks and what could I get in return?

### Risk Indicator

**The risk indicator assumes you keep the product for 3 years.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period : 3 years			
Investment EUR10,000			
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8,680 EUR	8,700 EUR
	Average return each year	-13.2%	-4.5%
Unfavourable	What you might get back after costs	9,120 EUR	9,280 EUR
	Average return each year	-8.8%	-2.5%
Moderate	What you might get back after costs	10,040 EUR	10,010 EUR
	Average return each year	0.4%	0.0%
Favourable	What you might get back after costs	10,640 EUR	10,560 EUR
	Average return each year	6.4%	1.8%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 09/2019 and 09/2022.

The moderate scenario occurred for an investment between 10/2021 and 10/2024.

The favourable scenario occurred for an investment between 07/2018 and 07/2021.

What happens if Structured Invest S.A. is unable to pay out?

The default of the management company will have no direct effect on your fund shares, since the statutory provision provides that in the event of insolvency of the management company, the funds do not enter into the insolvency assets of the management company, but are ring-fenced.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs EUR	136 EUR	407 EUR
Annual cost impact (*)	1.4%	1.4% each year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.4% before costs and 0.0% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.11% of the value of your investment per year. This is an estimate based on actual costs over the last year.	113 EUR
Transaction costs	0.23% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	23 EUR
Incidental costs taken under specific conditions		
Performance fees	The Sub-Fund will pay a performance fee of 15% of the excess performance above the reference benchmark. The fee is paid in favour of the Investment Manager. The reference benchmark for all the classes denominated in EUR is the Bloomberg Barclays Global Aggregate 3-5 Year Total Return Index Value Hedged EUR Index (H03451EU Index) and for all the classes denominated in USD is the Bloomberg Barclays Global Aggregate 3-5 Year Total Return Index Value Hedged USD (H03451US Index).	0 EUR

---

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Possible share class specific redemption fees have to be taken into account for disinvestments. You can redeem your investment at any time as set out in the prospectus. You may receive less than expected if you cash in earlier than the RHP since the Fund will be less likely to achieve its objectives. The RHP must not be taken as a guarantee or an indication of future performance, return or risk levels.

---

## How can I complain?

You can submit complaints to us by following these steps:

By mail: Structured Invest S.A., 8-10, rue Jean Monnet, L-2180 Luxembourg

By telephone: +352 248 248 00 Mon - Fri from 9:00 a.m. to 6:00 p.m.

By email: [complaintssi.uib.lu@unicredit.eu](mailto:complaintssi.uib.lu@unicredit.eu)

In the event of a complaint, please describe the underlying facts in as much detail as possible and send us all the necessary documents. We will respond in writing only within no later than one month from the date of sending of the complaint.
